## Statement of Purpose

### INTRODUCTION AND ACADEMIC BACKGROUND

My name is....., permanent resident of .....previously .....son of.....and ..... I was born in..... To speak about myself, I would like to say that I have been splendid student in all my academic embankments, helpfulness is something that resides in my veins. In addition, I have always been a very good and quick learner whole my life; as a result, I have gotten appreciation and applause for everything I have done so far. My immense interest in accounting emerged with my early exposure towards accounting course since my schooldays.

I look up to my parents as a driving factor to move ahead in life for they never miss a chance to admire me and my work; Needless to say, they have heavily supported me throughout my academic journey. Perhaps, I strongly agree when people say "I have inherited lots of their attributes such as: resilience, humble-ness, hardworking attitude and thankfulness." I have always realized the im-portance of Higher education in my life. The fact cannot be denied that education makes one social, cultured and civilized. Therefore, I passed my S.L.C with 1st di-vision (78.88%) from Ketu English boarding School Ramche in 2015. Subsequent-ly, I enrolled into Liverpool international secondary school, Nayabaneshwor, Kathmandu from where I completed my intermediate level with 58.10 % aggre-gate in 2017.

In the process of choosing my future destination, I came across Australia and has regarded it as one of the best destination to expand my talent into the field of ac-counting. Therefore, I joined IELTS classes and managed to score band score 5.5 overall in IELTS; which is not however, I still believe not my full capacity.

## REASON TO CHOOSE AUSTRALIA

Accountancy is crucial as it provides updates on the finance health of the company. It advises the company of the progress and impending problems that needs to be addressed. This is the department that makes numbers and figures an exciting topic during management meetings. In the 2015 QS World University Rankings: Accounting and Finance, six (6) Australian universities were cited in the Top 50 band. Total of seventeen (17) Australian universities were cited in the Top 200: 2015 QS World University Rankings: Accounting and Finance. The Times Higher Education World University Rankings 2015-2015 has cited thirty-one (31) Australian universities in the Top 800 band. Students of accountancy in Australia are taught using the state of the art technology available in the field of accountancy. Education providers invest in developing systems, applications and researches. The chance of getting experienced accounting educators with different racial backgrounds is high. International students are exposed to various disciplines, allowing them to understand the practices in other parts of the world. There are three (3) professional accounting bodies for accountants in Australia: CPA Australia, Institute of Chartered Accountants and Institute of Public Accountants. Completing an accredited degree is the recognised pathway to associate membership to CPA Australia and Institute of Chartered Accountants.

There are number of reasons to why I chose Australia as my destination for further studies.

\*Australia has low crime rates compared to other countries.

\*UK's climate, weather and cost of living are not as attractive as those of Australia.

\*USA's tuition fees are more or less similar with those of Australia; however, USA does not practice a uniform, whole nation accreditation system like Australia. I am also not guaranteed the quality of service after making such huge investment.

\*Australia, is a country with diverse culture and safer environment, and ranks as third most sought destination for international students with its universities consistently ranked among the top universities in the world.

# GLOBAL EDUCATION & MIGRATION SERVICES

PH: +977 01 4423119

\*Australia has a nationally accredited system for their vocational studies framework and this gives strong confidence to its quality.

\*Australia provides dynamic and progressive education program with a reputation for excellence, globally recognized course and qualification.

\*Australia provides unique kind of education and a learning style that encourages innovative, creative and independent thinking culture.

\*More importantly, the nursing education in Australia is world renowned to be practical with primary focus on employment, which exactly fits my expectations. Graduates from Australia are very successful in finding jobs and holding prominent position in my country.

\*Australia also practices ESOS act (Education Service for Overseas Students) for international students which governs fundamental rights of international students and enables our rights to receive accurate information before enrollment, current courses fees, mode of study and other relevant information about institution.

\*CRICOS (Commonwealth Registration of Institutions and Course for Overseas Students) is also an important factor of Australian Education System which ensures quality education to international students.

\*TPS (Tuition Protection Service) and gun control system are other attractions of Australia.

## Why Sydney?

Sydney is one of the major cities in Australia; it is well familiar with top class education and technologies. Along with this, it is the best place than any other cities due to climate, nature of people and educational institutes. Climatic conditions of Sydney are also similar to Nepal so

# GLOBAL EDUCATION & MIGRATION SERVICES

PH: +977 01 4423119

we can easily adjust over there. Thousands of international students from different countries come to fulfil their ambitions in Sydney, so it is a multicultural city having rich blend of ethnicities. Studying in such environment of Australia's educational and financial hub will definitely give me international exposure which can turn out to be very beneficial in future.

## REASON FOR NOT CHOOSING NEPAL

Also, I chose to study in Australia over my home country Nepal. My country is my pride no matter what but unfortunately, my country is still struggling through political, economic as well as social stability. These instabilities is affecting the life of people, from students to employees. The frequent strikes and shutting down of institutions and organization is affecting the life of people. The education system is also being affected due to frequent strikes. Also, the educational curriculum in Nepal is narrowed down to theories only. The practical approach is skipped in all most all of the courses. So to enhance my capability to fit in the job market and meet the employer's requirement I want to unlock all my capabilities through theoretical as well as practical approach. I have learnt that Australia provides best possible education through both theoretical and practical approach.

I did extensive research in Nepal and visited the Universities ( Pokhara, Purbanchal and Tribhuvan) here for a Bachelors course first. But seeing the syllabus and theoretical way of handling things, I thought studying a Vocational sector program will be better as they are courses, which were established for their Vocational focus. I then checked out different colleges in Nepal like Tribhuvan University (their vocational sector), Acme College, Kathmandu college etc. But here too I found a dearth in the way the subjects were taught. In fact the syllabus of the diplomas offered by them were outdated. None of the advances in the field, nor the use of technology was seen. This prompted me to look overseas for my higher qualification.

## REASON FOR CHOOSING THE EDUCATION PROVIDER (AIA)

I have chosen Australian International Academy, Sydney, Australia located at Suite 1, Level 5, 545 Kent St Sydney, NSW 2000. I was attracted to Australian International Academy because of its unique feature, facilities (services) and its location. AIA is a professional college located in Australia, which mostly focuses on the courses like Accounting, Business, Management, Child care and IT. It provides student and professionals with increased skills and enables them to enter and compete in the Australian marketplace. It's creating new and modern facilities to all of its students and continually investing in latest technology, spaces, and support services. It also offers a very good platform for students regarding research with a lot of training opportunities. Basically, they provide a series of exceptional and completely planned course to ensure individuals graduate with a tough competence. The instructor in AIA are highly qualified and experienced who help every student to achieve good education over there. I was attracted by excellent counseling service provided to students for ensuring whether the students are happy on track with their career paths or not. This institute also help in home stay as it is able to advise us to home stay provider so we can select the right home when we move to Australia. AIA is located in the heart of Sydney with the easy excess of transportation. Beside, these I followed the Australian Government's Department of Education and Training website ([www.cricos.education.gov.au](http://www.cricos.education.gov.au)) and searched for the other education provider like Australian Vocational Learning, Westminster College and SABB College that offered same course but the cost of those provider was AUD 24,000. AUD 16,400 and AUD 14,700 per year respectively. The course fee of AIA is AUD 12,000 for Diploma of Accounting which last for 78 weeks and AUD 15,000 for Advanced Diploma of Information Technology that lasts for 78 weeks. Furthermore AIA focuses on business and technology related courses. I do not have any confusion that this college would provide me every-thing that I have expected.

Some benefits of studying in this institute are:

1. AIA college is registered on the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) to deliver courses for international students.
2. AIA will customize a training program with qualified professionals to come to your business

# GLOBAL EDUCATION & MIGRATION SERVICES

PH: +977 01 4423119

and conduct in-house training sessions.

3. Employer of AIA will help students to coach student with their interview skills including role play.

Australasian International Academy aims at all times to provide a positive and rewarding learning experience for all students. As a registered training organization, Australasian International Academy (AIA) is bound to comply with the Vocational Quality Framework (VQF), the National Code of Practice 2007 and other requirements specified by the Australian Skills Quality Authority (ASQA). Furthermore, AIA has affordable college fee which is one of the considerable factor coming from a developing country. In addition, its class timetable is flexible for me to adjust to a new schedule.

REASON TO CHOOSE THE PARTICULAR COURSE (Diploma and Advanced Diploma of Accounting)

There were few reasons for choosing Diploma and Advance Diploma instead of direct Bachelor. Firstly, I found Advance Diploma courses (Vocational Education and Training Courses) are more popular for providing practical and professional skills. Secondly, going through Diploma and Advance Diploma will help me in developing my skills and knowledge and I will get a chance to learn about Accounting in more depth. My chosen course teaches the accounting skills required in every business sector, giving graduates a very competitive edge when looking for employment in this field. The course has been designed to produce qualified accountants and focus on preparing students for a career in banking, insurance, investment, and financial services.

To my observation, all the units during study are equally important and seem to be designed to meet the need of Accounting and Business field. The study of diploma of accounting 78 weeks course contains 11 units including where I will learn to prepare financial reports to corporate entities, manage budget and forecast, Implement and maintain internal control procedure, provide financial and business performance information, prepare tax documentation for individual, provide management accounting information as a core unit

# GLOBAL EDUCATION & MIGRATION SERVICES

PH: +977 01 4423119

and prepare financial reports, prepare financial transactions and so on as elective unit. Whereas Advance diploma of accounting 78 weeks course contain 14 units, where I will learn to interpret and use financial strategy and tools, apply economic principles to work in financial service industry as a core unit and manage budget and forecasts and so on as an elective unit.

Accountancy can provide a pathway for the below job titles:

- Taxation officers
- Bankers
- Entrepreneurs
- Forensic Accountants
- Investment Managers
- Auditors
- Stockbroking Managers
- Traders
- Investment Analysts
- Financial Advisors
- Management Consultants

Regarding My Finance and Future Plan:

Regarding my finance, all my expense will be sponsored by my parents. They believe that it is their responsibility to look after my education. They are well aware of my expenses for entire course and they are financially secure to sponsor me. My motivation to come back to Nepal is my parents. Since they have dedicated their life for me now it is my responsibility to look after them as I come back. I am greatly motivated and ambitious in pursuing my degree in Australia to improve my efficiency. My stay in Australia is temporary. I have planned to study in Australia only to develop my career through better educational matters along with gaining international experience.

# GLOBAL EDUCATION & MIGRATION SERVICES

PH: +977 01 4423119

I am greatly motivated and ambitious in pursuing my degree in Australia to improve my efficiency. My stay in Australia is temporary. I have planned to study in Australia only to develop my career through better educational matters along with gaining international experience. After the completion of advance diploma, I will be eligible to have credit transfer to Bachelor degrees especially Bachelor of Commerce (Accounting) and Bachelor of Business (Professional Accounting). After completing my bachelor's study in Australia, I will also get a 2 years' Post Study Work (PSW) service under which I'll get a chance to work in Australia which will help me in gaining some experience in my field. After gaining an international experience, skill and knowledge I will like to return to my own country, Nepal and start my own business of Taxation and Auditing or I could also find a good job in some reputed multinational companies such as Unilever Nepal, Coca-cola, Hyatt regency, Chaudhary Group (CG) etc. Not only that, I can also get a job at reputed financial institutions such as Nepal Bank, Nabil Bank, Everest Bank, Standard Chartered Bank etc or even in I/NGOs or private firms at the post of Senior Accountant or even as Financial Advisor. I am confident that within a couple of years I can meet up with all the expenses which I spend on Australia because my expected salary will be 90,000-100,000 NRS, according to salaryexplorers.com (that enlist the average salary of professionals in Nepal). Since, I am the only son of my parents; I have a lot of responsibilities towards them which I must fulfill. So, after graduation I'll return to Nepal and fulfill all the dreams of my parents. I believe in a prolonging career in this field. I will also do my best to defend challenges in the knowledge acquiring stages and go on my aim smoothly.

Moreover, being the youngest son of the family, I will come back to bear the proper responsibilities of my family. Similarly, I cannot live without my sweet family for a long period. Additionally, with my dream, aim and passion, for me the happiness of my parents is very important, as they had done a great contribution for me right from the birth. They have always supported and encouraged me and made sure that there are no stones left unturned for my career. This is an unremarkable contribution for me. I can't pay for it but I can care and love in their old ages being on their side. Today I place where I am is due to my parents. After all with this motto on me, with completion of my degree and some experience, I will return back to my country.

PH: +977 01 4423119

Conclusion:

Also, I am well aware of the Visa (subclass 500) condition that I have to follow during my stay in Australia like;

- Maintaining 80% of attendance
- Work permit of 40hrs per fortnight
- Clearance of 50% of subjects in each term
- Attending the enrolled University for at least 6 months
- Maintaining the Health Insurance during my entire stay.
- Informing the University/DIBP within 7 days if I change the address or contact details.
- I assure the Australian Government that I will stay within the condition of Vi-sa (subclass 500) during my stay in Australia and perform no such activity that is against the Visa (subclass 500) condition.

Finally, I believe that my study in the field of Accounting will provide me with a sound base for further study. Therefore, I hope to have a positive response to-wards my proposed study in Australia and request you to grant me a visa permis-sion required for the same.

Sincerely

.....
