Statement of Purpose

Introduction and Background

I, born on holding the passport number, from the humble village of, would like to express my gratitude to have been given an opportunity to write a Statement of Purpose to pursue Diploma of Early Childhood Education and Care in the reputed Axis Institute in Brisbane, Australia.

My decision to pursue Diploma of Early Childhood Education and Care is not only inspired by my academic goal. It is also something that comes innately to me. Even when I was 13-years-old, in addition to spending time with my teenage friends, I took few hours in my time to run a small in-home tuition center for children in my neighborhood. There I came to learn how passionate I was when it came to Development of children. The tuition I ran was not only limited to providing studies related assistance. Owing to a realization that children need more than books and homework to learn, I began conducting extracurricular activities like taking them to grocery shopping, to make learning more children friendly. I have been teaching children since then.

“Eshneha Miss, why is it easier to count money than doing addition and subtraction in Mathematics,” a child, a two-grader student of mine, once shared his inquisitiveness in the class. This innocent revelation led all the students to agreeing to turn every problem in arithmetic to money problem. Their grades drastically improved over time. To this day, I consider this moment as one of the most important lessons of my life as a teacher. I didn't interfere with their learning process. I just showed them the way, they reached their destination on their own. I want to explore my passion and contribute to a healthy society where Children are wise and intellectually healthy which will contribute to create a safer and well-informed society in the future.

A genuineness assessment is made by taking into account a number of personal factors relating to the student, such as their immigration history, circumstances that might encourage the student to return to their home country and conditions that might encourage them to remain in Australia.

I am fully aware of the Student Visa Conditions under Higher secondary sector visa, subclass 500 and I am mentally prepared to obey the obligations:

- I must maintain at least 80% attendance.
- I must score minimum of 50% in each exam to pass.
